8th Grade Career Day benefits students

More than 360 students from Wyoming County School Districts may find their future on Friday October 19th at the 7th Annual 8th Grade Career Day. Hosted this year at Perry Central Elementary/Middle School, students will meet with more than 26 different employers. Throughout this day long event, students will have the opportunity to evaluate careers in Construction, Law Enforcement, Agriculture, Finance, Massage Therapy, Cosmetology, Health Care, and Catering/Chef. Career Day brings together students and employers from various local businesses in a way otherwise not possible, and is an opportunity students should not miss. “We help students to explore their career options,” said Linda Leblond, Executive Director Business Education Council and Career Day coordinator. Career Day events like this one carry benefits for all students by establishing face-to-face contact with employers who will provide interactive presentations. For more information contact The Business Education Council, (585) 237-3010.
